## **Is Design Consultation necessary?**

Yes. We begin every project with a 2 hour design consultant. It gives us the opportunity to be on site with you and understand your use of your space. This understanding becomes the base of our design.

## **When should I hire a designer?**

While each project is unique, our typical timeline for finalizing designs is approximately 7-10 weeks. The ordering and delivery of furnishings may extend up to 8 weeks. For renovation projects, we recommend allowing ample time to hire a contractor and ensuring they have sufficient time to order all necessary materials before commencing the demolition process. This strategic planning helps to ensure a smooth and well-executed project timeline."

## **What to do if I don't like the design?**

At ATI, we collaborate with you at every step to ensure that the final design is a true reflection of your personality and seamlessly integrates with your lifestyle. Our process is meticulously structured to uphold our dedication to our clients. Before any final decisions are made, we provide you with an opportunity to make revisions, ensuring that the design aligns perfectly with your vision and preferences.

## **Why do you take photos of our home?**

As a creative business, our work serves as a powerful marketing tool. We deeply respect and prioritize our clients' privacy, and therefore, we do not publish any personal information about them. Our focus is on showcasing the creativity of our projects while ensuring the confidentiality and privacy of our valued clients.
